818-398-3888 • LindsayAazami@gmail.com

ACTIVE TOP SECRET/SCI

Education

2019 • M.S. Geographic Information Science & Technology, University of Southern California

2014 • B.S. Geographic Information Science, Middle Eastern & Islamic Studies Minor, California State University-Northridge

2009 • A.A.S. Communications Applications Technology, Community College of the Air Force

Experience

Senior Analyst/ISR Tactical Controller

CACI/SSU - JSOAC

June 2015 - Present

Ft Bragg, North Carolina

- Deployed as an ITC (Intelligence Surveillance Reconnaissance Tactical Controller) to serve as the liaison to coordinate time sensitive targeting efforts between Processing Exploitation Dissemination (PED) units, Human Intelligence, Signals Intelligence, and airborne intelligence collection assets to implement the the Task Force Ground Commanders intent
- As a Senior FMV (full motion video) analyst, analyzed and exploited real time FMV to locate military equipment, forces, and activity worldwide in order to provide live support to operations, alerted mission-planners and decision-makers
- Prepared imagery intelligence products and responses on complex issues; Briefed intelligence assessments and positions
- As Lead Team Trainer, was the technical POC to conduct and plan all pre deployment preparatory ITC training for experienced analysts and trained new hire analysts in real-time imagery and FMV exploitation
- Developed and implemented team level training plans and rubric, routinely relied upon to conduct train the trainer
- Maintained knowledge of military, political, technical, and developments worldwide to conduct imagery assessments
- Conducted senior analyst quality control and distribution to ensure products adhere to standards and regulations

Geographic Information Science (GIS) Analyst

City of Santa Clarita - City Hall

December 2013 - October 2014

Santa Clarita, California

- Updated and maintained city database with current shape files to include street light, oak tree, graffiti, home owners associations, city expansion, drought area, and emergency response area layers
- Performed field data collection & mapping utilizing handheld GNSS Trimble GPS units with LaserAce 1000 Rangefinder
- Designed and produced high-quality cartographic products; for internal use, publication, and public display
- Created first comprehensive map of home owners association boundaries within city and surrounding areas
- Developed accurate maps within Santa Clarita area of state-wide high speed rail routes based upon design concepts
- Collaborated with City Supervisors in constructing and maintaining service routes and maps
- Edited and managed online data mapping tool developed by the City using ArcGIS Server and Geocortex

Genius Bar Specialist/Senior Apple Care Support

Apple - Glendale Galleria / At-Home Advisor

January 2014 - March 2016

Glendale, California / Sanford, North Carolina

- Provided tailored solutions to suit each customer's needs, gained trust through professionalism and product knowledge
- Performed inventory blind counts; maintained inventory accuracy and transparency of availability to customer
- Served on Visuals Team - implemented marketing window and wall displays, maintain demonstration units, controlled loss prevention through demonstration management control, formatted demonstration units to uniform standard
- Delivered hardware and software demonstrations; provided individual tutoring services
- Engaged business clients, identified business solutions and created custom product solutions
- Provided on demand technical support solutions over the phone as well as through remote access

- Provided direct functional imagery and advanced geospatial intelligence analysis and reporting to support Air Force Distributed Common Ground System Weapon System
- Reported exploitation via voice and textual reports in accordance with mission reporting requirement based on Essential Elements of Information
- Supported Indications and Warning, current intelligence and battle damage assessment requirements
- Analyzed EO/IR/SAR Imagery from both theater and national assets

Geospatial Intelligence Analyst
United States Air Force

June 2006 - May 2011
Various Locations

- Served as Team Lead at DCGS-3 (6th IS), supervised and analyzed multi-sensor derived satellite imagery, produced & disseminated products and reports to support the Republic of Korea
- Mission trained and qualified as an Air Force DCGS FMV and national satellite Geospatial and Imagery Analyst
- Maintained and organized searchable Image Product Library (IPL) with current and past imagery products
- Satisfied time sensitive world-wide taskings at AFSOC (1 SOSS) by utilizing and exploiting satellite imagery, digital elevation data, and FMV to create helicopter landing zones and additional tailor made products
- Contributed in developing the initial standardized training plan for imagery analysis with 80 step verification process
- Deployed as Senior Analyst to CJSOAC (Iraq) to support 30 aircraft and 15 Special Tactics teams in five countries - solely produced over 3,000 imagery products in the execution of 450 missions and the acquisition of 125 time sensitive targets
- First Imagery Analyst selected to deploy with CV-22 Osprey - developed and implemented all initial tactics and procedures for new weapons system requirements and helicopter landing zone needs while in a deployed environment

Professional Development

- 2018 • STK Certification, Analytical Graphics Inc
- 2010 • Air Force Distributed Common Ground System Imagery Analyst Course, Goodfellow AFB, Texas
- 2008 • Reintegration & Repatriation Course, Joint Special Operations University, Hurlburt Field, Florida
- 2008 • Combat Survival Training Course (S.E.R.E.), Fairchild AFB, Washington
- 2007 • Air Force Special Operations Command Intelligence Formal Training Unit, Hurlburt Field, Florida
- 2007 • Imagery Analysis Apprentice Course, Goodfellow AFB, Texas

Software Knowledge & Skills

- | | | | |
|-----------------|--------------------|---------------------|----------------------|
| • ArcGIS Suite | • Imagery / FMV | • SIGINT / HUMINT | • GPS Mapping |
| • SocetGXP | • mIRC | • Targeting | • Map Interpretation |
| • RemoteView | • IESS | • Adobe Illustrator | • Python |
| • FalconView | • ITK | • Cartography | • Google Earth Pro |
| • ERDAS Imagine | • Quick Query (Q2) | • Land Navigation | • STK Certified |

Career & Educational Highlights

- 2018 & 2019 • Dean's List - University of Southern California
- 2012 & 2013 • Dean's List - California State University, Northridge
- 2010 • Distinguished Graduate - Air Force Distributed Common Ground System Imagery Analyst Course
- 2010 • Joint Service Achievement Medal - Operation Iraqi Freedom / Operation Enduring Freedom
- 2009 • Air Force Achievement Medal - Hurlburt Field Honor Guard
- 2009 • Airman of the Quarter - 1 SOSS, 1 SOG, & 1 SOW for 4th Quarter
- 2009 • Airman of the Month - CJSOAC & JSOAC-AP for August
- 2006 • Honor Graduate - Air Force Basic Military Training

Professional Fellowships

- American Association of Geographers
- American Geographical Society
